

Neuroscience Grand Rounds – September 7, 2016 to June 28, 2017

08:00 to 10:00 Wednesday, Auditorium, Cordula and Gunter Paetzold Health Education Centre, Vancouver General Hospital

Date	1 st Hour Presentation	Title	2 nd Hour Presentation	Title
September 2016	7 Robin Hsiung, MD MHSc FRCPC FACP Associate Professor Division of Neurology, Dept. of Medicine University of British Columbia	Biomarkers in Dementia: Path to the Holy Grail or a Clinical Conundrum?	Bing Wei Wang R4 Neurology Resident	Continuous EEG Monitoring in Critically Ill Patients
	14 Prof Petrus J de Vries, MBChB, MRCPsych, PhD Sue Struengmann Professor of Child & Adolescent Psychiatry Department of Psychiatry and Mental Health University of Cape Town, South Africa	Finding and Hitting the Treatment Target in Tuberous Sclerosis Complex	Mary Dunbar R5 Pediatric Neurology Resident	Worsening ADHD as a Clue: A Case of Anti-NMDA Receptor Encephalitis
	21 Jason Barton, MD, PhD, FRCPC Professor Division of Neuro-ophthalmology The University of British Columbia	Alexia and Prosopagnosia: Words, Faces and Perceptual Expertise in the Human Visual System	Valerie Cheung R5 Neurology Resident	Mitochondrial Optic Neuropathies
	28 Stephen Thompson, MD Assistant Professor of Neurology The University of Texas Medical School at Houston	Periventricular Nodular Heterotopia, SEEG, and the “DC Shift”	Jennifer Percy R5 Neurology Resident	Neurologic Complications of Infective Endocarditis
October	5 <i>Naveen Deshpande Lecture</i> Michael D Hill, MD MSc FRCPC Calgary Stroke Program Professor, Dept Clinical Neurosciences Hotchkiss Brain Institute, Cumming School of Medicine, University of Calgary	Acute Stroke Therapeutics: What's Next?	<i>Tom Godwin Lectureship</i> Sandra Black, MA, MD Senior Scientist Sunnybrook Health Sciences Centre, Toronto	Diagnosing Vascular Cognitive Disorders: Are Imaging Biomarkers Changing the Game?
	12 Marcus Ng, M.D., F.R.C.P.(C.) Adult Epileptologist and Assistant Professor of Neurology Health Sciences Centre, University of Manitoba	On REM Sleep and Epilepsy	Ghadeer Al Momen R5 Neurology Resident	Cerebrovascular Dysfunction in Pregnancy/ Puerperium
	19 Ian Mackenzie, BSc, MD, LMCC, FRCPC Professor, Department of Pathology and Laboratory Medicine The University of British Columbia	The Molecular Neuropathology of Amyotrophic Lateral Sclerosis	Alice Schabas R5 Neurology Resident	X-Linked Adrenoleukodystrophy
	26 Mark Tarnopolsky, MD, PhD, FRCP(C) Professor of Pediatrics & Medicine, President and CEO, Exerkine Corporation Director of Neuromuscular & Neurometabolic Clinic McMaster University Medical Centre	Exosomes as a Novel Therapy for Duchenne Muscular Dystrophy, Pompe Disease and Mitochondrial Disorders	Nikkie Randhawa R5 Neurology Resident	Neurologic Complications of Sickle Cell Disease
November	2 Jonathan Squires, MD, FRCPC Clinical Instructor Division of Neurology University of British Columbia	Managing the Motor Complications of Parkinson's Disease	Tychicus Chen R4 Neurology Resident	The Red Brain: Tales of the Congophilic Angiopathy
	9 Axel Rohr, MD, PhD (PD Dr. med. Habil) Associate Professor Radiology Kiel, Germany	Imaging in Intracranial Hypertension	Abdulrazaq Albilali R5 Neurology Resident	Idiopathic Intracranial Hypertension: Pathogenesis theories and Recent Treatment Advances
	16 Samuel Lapalme-Remis, MDCM, MA, FRCPC Clinical Fellow, Mayo Clinic Clinical Neurophysiology – EEG/ EP and Epilepsy Department of Neurology Rochester, MN, USA	Integrating the Patient Perspective into Decision Making in Epilepsy	Melissa Mackenzie R5 Neurology Resident	Under a Microscope: A Case and Literature Review

	23	Paetzold Auditorium not available – ROUNDS CANCELLED			
	30	Stephen van Gaal, MD, FRCP(C) Fellow, Stroke Neurology University of Calgary	Transport Decision Making for Acute Stroke	Christopher Fox R5 Neurology Resident	On Vasculitis
December	7	William G. Honer, MD, FRCPC, FCAHS Jack Bell Chair in Schizophrenia Professor and Head, Department of Psychiatry Director, Institute of Mental Health University of British Columbia	The Interface of Neurology and Psychiatry in Vancouver's Downtown East Side	Clark Funnell R4 Neurology Resident	A Whirlwind Tour of Conversion Disorder (in children)
	14	Helen Tremlett, PhD Professor <i>Canada Research Chair in Neuroepidemiology and Multiple Sclerosis</i> Faculty of Medicine (Neurology) University of British Columbia	Using Population-based Data Linkages to Investigate Multiple Sclerosis Epidemiology (and potential application to the gut microbiome)	Lily Zhou R2 Neurology Resident	Loving POEMS for the Neurologist
	21	Mary Connolly, MB, BCh BAO, FRCP(C), FRCP(I), FRCP(Ed) Investigator, BC Children's Hospital Director of the Epilepsy Surgery Program, BC Children's Hospital Clinical Professor and Division Head, Division of Neurology, Department of Paediatrics, University of British Columbia	Epilepsy in 2016: Definitions, Epidemiology and Classification	Jonathan Smith R3 Pediatric Neurology Resident	Transient Cerebral Arteriopathy in Pediatric and Young Adult Stroke
	28	Christmas and New Year Break – ROUNDS CANCELLED			
January 2017	4	Neil Cashman, Md, FRCPC, FCAHS Canada Research Chair Tier I Professor, Division of Neurology Director, ALS Centre The University of British Columbia	Proteostatic Collapse in Neurodegeneration: What Can We Do?	Joshua Lai R3 Neurology Resident	Post Stroke Headache: A Review
	11	Kevin Pennycooke, MB BCH, BAO, LRCP&SI (NUI), MRCS, FFR RCSI, EBIR Neuroradiology Fellow	The Imaging of White Matter Disease	Anne Nguyen R3 Neurology Resident	"Acute" Psychosis in the Elderly
	18	Adrian Fawcett, MD PhD FRCPC Stroke Neurologist Interventional Neuroradiology Fellow McMaster University Hamilton, ON, Canada	Neurointervention: Past, Present and Future	Damon Li R2 Neurology Resident	Review of Moyamoya
	25	Stephen Yip, MD, PhD, FRCPC Assistant Professor University of British Columbia	Gene Fusion Events in Brain Tumours- Implications for diagnosis and treatment	Sohaila Al Shimemeri R3 Neurology Resident	On the Silk Road Disease
February	1	Hal Blumenfeld, MD, PhD Professor of Neurology and Neurosurgery Director, Yale Clinical Neuroscience Imaging Center Yale University School of Medicine	Why are Children with Absence Seizures Absent? fMRI, EEG and Behavioral Findings	Jonathan Fridhandler R4 Neurology Resident	Connecting The Dots: A Clinician's Guide to Brain Connectivity Theory
	8	Alister Prout, MBChB, FRCPC Head, Division of Neurology, St. Paul's Hospital	Lues Venera, a Disease for the Ages	CANCELLED	
	15	Brian Thiessen, BSc, MD Clinical Assistant Professor, University of British Columbia Neuro-Oncology Tumor Group Chair, BCCA	Current Management of Gliomas: Bringing Molecular Diagnostics to the Clinic	Athari Salmeen R4 Neurology Resident	Epilepsia Partialis Continua

	22	Noah Silverberg , Ph.D., R. Psych., ABPP Board Certified in Clinical Neuropsychology Acquired Brain Injury Program, G.F. Strong Rehab Centre Clinical Assistant Professor, Physical Medicine & Rehabilitation, Faculty of Medicine, University of British Columbia	Prevention and Treatment Chronic Symptoms Following Mild Traumatic Brain Injury	Andrew Mattar R2 Neurology Resident	A Review of Orbital Apex, Superior Orbital Fissure, and Cavernous Sinus Syndromes
March	1	Kathryn Selby , BSc, MBChB, MRCP, FRCP Pediatric Neurologist Medical Director Neuromuscular Program BC Children's Hospital	From Basic Science to Clinical Care: The Good, The Bad and the Challenging in Spinal Muscular Atrophy	Gillian Paton R4 Pediatric Neurology Resident	Looking Through the Fog at MOG
	8	Shernaz X. Bamji , Ph.D. Professor, Department of Cellular & Physiological Sciences Life Sciences Institute & Djavad Mowafaghian Centre for Brain Health University of British Columbia	Role of the X-Linked Intellectual Disability Gene, DHH9, in the Formation of Neural Circuits	Marianne Schwarz R2 Neurology Resident	Creutzfeldt-Jakob Disease: An Update
Brain Awareness Week Annual Distinguished Neuroethics Lecture	15	Thomas I. Cochrane MD, MBA Associate Neurologist and Senior Ethics Consultant, Brigham and Women's Hospital Assistant Professor of Neurology and Director of Neuroethics, Centre for Bioethics, Harvard Medical School	Life-Sustaining Therapies in Neurology: The Case for Paternalism	CANCELLED	
	22	Carles Vilarino-Güell , Ph.D. Assistant Professor and Canada Research Chair Department of Medical Genetics University of British Columbia	Multiple Sclerosis – is it in your genes?	Emmanuelle Lapointe UBC MS Clinical Fellow	The Use of Advanced MRI to Characterize Radiation-Induced White Matter Changes
	29	José Serratos , MD PhD Associate Chief, Neurology Department, Fundación Jiménez Díaz Associate Professor, Department of Medicine, Autónoma University of Madrid	Genetics of Epilepsy and its Application to Clinical Practice	Christopher Uy R3 Neurology Resident	Balo Concentric Sclerosis, Marburg Variant, Tumefactive MS & Selected MS Mimics
April	5	Islam Hassan , MBChB, MMedSc, MRCP(UK), FRANZCP, FRCP(C) Neuropsychiatrist, BC Neuropsychiatry Program and VGH Epilepsy Program. Clinical Assistant Professor, Department of Psychiatry, UBC	Vancouver Initiatives in the Neuropsychiatry of Epilepsy	Alyson Plecash R1 Neurology Resident	An Interesting Presentation of Status Epilepticus
	12	Elaine Ni Mhurchu , MD UBC Neuroradiology Fellow	T2 Bright Lesions of the Brainstem on MRI	Laura Haley R2 Neurology Resident	The Recurrent Storm: RCVS
	19	Silke Cresswell , MD Assistant Professor Neurology	Your Closest 100 Trillion Friends and Their Potential Role in Parkinson's Disease	Elliot Bogusz , MD UBC EMG Clinical Fellow	Maneuvering Mononeuritis Multiplex
	26	AAN Meeting – ROUNDS CANCELLED			
May	3	<i>Clarisse L. Dolman Memorial Lecture</i> Cynthia Hawkins , PhD MD FRCP Division of Pathology, Department of Paediatric Laboratory Medicine The Hospital for Sick Children Professor, University of Toronto Senior Scientist, Cell Biology Program, The Labatt Brain Tumour Research Centre	Paediatric CNS tumours, WHO 2016 and Beyond	Aleksandra Ivanovic R2 Neurology Resident	Oh my Gut! Yet Another Microbiome Talk
	10	8th Neurology Resident Research Day – ROUNDS CANCELLED			

	17	Matthew Kula, MD Clinical Assistant Professor Neurology University of British Columbia	CIDP An Overview	Jason Randhawa R1 Neurology Resident	The Man with the Disappearing Foot: an Uncommon Complication of a Common Condition
	24	Anita Datta, MD, FRCPC, CSCN Diplomate (EEG) Clinical Assistant Professor of Pediatrics University of British Columbia Pediatric Neurologist and Epileptologist BC Children's Hospital	Precision Medicine for Treatment of Epilepsy	Leeza Looned R3 Pediatric Neurology Resident	Not a laughing matter: hypothalamic hamartoma
	31	Lysa Boissé Lomax, MD MSc FRCPC Assistant Professor Divisions of Neurology and Respiriology Department of Medicine Queen's University	'North Sea' Progressive Myoclonus Epilepsy	Johnathon Gorman R1 Neurology Resident	Infected Chronic Subdural Hematoma: A Rare Cause of Subdural Emphyema
June	7	David Volders UBC Neuroradiology Fellow	Imaging in Acute Stroke	Kimia Ghavami R1 Neurology Resident	Definitely VZV. Maybe Encephalitis.
	14	Samuel Yip, PhD, MD, FRCPC Clinical Assistant Professor, VGH Stroke Center Division of Neurology, University of British Columbia	Cryptogenic Stroke	Nicole Ng R1 Neurology Resident	APS / Hypercoagulable States in Neurology
	21	CNSF Meeting – ROUNDS CANCELLED			
	28	ROUNDS CANCELLED			

Last Update: June 7th, 2017
